- Forage Mixers

Mowers

- Disc
- Drum
- Conditioners – Disc Mounted
- Conditioners – Disc Trailed
- Conditioners – Drum
- Conditioners – Sickle

Rakes

- Rotary Single Rotor
- Rotary Multi Rotor
- Finger Wheel

Tedders

- Rotary
- Rakes Rotary

Combine Harvesters

Windrowers

- SP Hay Disc Cutterbar
- SP Hay Sickle Cutterbar
- SP Grain Draper Header
- SP Pull Type Grain Draper Header

Grape Harvesters

Cotton Pickers

Telehandlers

Almost 600 separate models from 17 distributors and 30 individual brands

SpecCheck Harvesting is the most comprehensive data base of current harvesting products available in Australia. The details of almost 600 individual machines are listed.

Harvesting products can be selected by brands, power range or models.

For each of the 27 identified product groups, key performance and specification information is available for comparison. This includes details of all the listed harvesting machines and any tractor requirements specific to that combination.

SpecCheck Harvesting provides information in an easy to use CD format. It allows comparison of upto any five separate machines that have been selected to be compared on one page. That information can be printed off or transferred to an excel spreadsheet.

The information in **SpecCheck** Harvesting is provided by the suppliers and independently compiled. **SpecCheck** has been a reliable reference source used by the farm machinery industry for more than 15 years.

Approximately 600 current model machines are listed from these brands:

BCS	Case IH	CAT Lexion	Challenger	Class	Gendore
Gleaner	Grizzly	Fella	Feraboli	Howard	John Deere
JF	Krone	Lely	MacDon	Massey Ferguson	McCormick
New Holland	SIP	Schuitemaker	Sitrex	Stoll	Strautmann
Taarup	Tonutti	UR	Vermeer	Vicon	Welgar

SpecCheck is also available in the following databases.

Tractors

Tractors is the most comprehensive and accurate product specification and price database of current model tractors available in Australia. The details of approximately 600 individual tractors are listed.

Grounds & Turf

Grounds & Turf is a new product with specification and price details on an extensive range of grounds and turf care products used to develop and maintain sporting and recreational facilities.

Tillage

Tillage is a new product with specification and price details on an extensive range of tillage and seeding machinery including air seeders, cultivators, disc ploughs and power tillage machines.

Used

Used contains specification and price details for more than 2,000 different models of tractors, combine harvesters and balers sold since 1989 but no longer available as current models.
